

# Coaxial Adapter

## S/S-KKG

### 1. Technical Specifications

| Electrical Performance   |               | Material and Plating |                                    |
|--------------------------|---------------|----------------------|------------------------------------|
| Frequency Range          | DC~26.5GHz    | Outer Conductor      | Stainless Steel SUS303, Passivated |
| VSWR                     | ≤1.15         | Inner Conductor      | Beryllium Copper, Gold Plated      |
| Insertion Loss           | ≤0.21dB       | Dielectric           | PTFE                               |
| Characteristic Impedance | 50Ω           | Mating Cycles        | 3000 times                         |
| Connector Type           | SMA(F)-SMA(F) |                      |                                    |

### 2.Outline Dimensions (Unit: mm)
